PROFILE

Full Stack Developer with strong experience in building fully integrated web applications using modern technologies. Proficient in designing responsive and professional user interfaces and developing robust, scalable, and secure backend systems using **React, Redux, Node.js, MongoDB, and .NET**. Skilled in database design, system analysis, and creating RESTful APIs. Committed to delivering high-quality technical solutions that meet user needs and align with organizational goals.

SKILLS

Frontend: React, Redux, HTML, CSS, JavaScript, Tailwind CSS

Backend: Node.js, Express.js, .NET Core, C#

Database: MongoDB, SQL Server

Tools & Concepts: RESTful APIs, JWT, Git, GitHub

PROJECTS

- **E-commerce Platform** (*React, Redux, Node.js, Express.js, MongoDB, JWT*)
Built a full e-commerce web app with cart, checkout, product filtering, and admin dashboard. Implemented JWT authentication and responsive UI.
 - **Pharmacy Management System** (*React, .NET Core, C#, SQL Server*)
Developed a management system for inventory, employees, invoices, and sales with real-time profit tracking and admin controls.
 - **Personal Medical Report System** (*React, Node.js, MongoDB, QR Code*)
Created a system to submit and display patient reports with scannable QR codes and dynamic form fields based on user data.
 - **Plant Disease Detection** (*Python, TensorFlow, KNN, CNN, OpenCV*)
Trained ML models using the PlantVillage dataset to detect plant diseases from leaf images with high accuracy.
 - **Job Platform for Students and Graduates** (*.NET Core, SQL Server, React*)
Built a job platform connecting students with companies. Included job filtering, CV uploads, and experience-based recommendations.
 - **User Management System** (*React, Redux, Node.js, MongoDB, JWT*)
Implemented a secure user management system with role-based access control and activity logging.
 - **Agricultural Expert System** (*Prolog*)
Developed a bilingual expert system (English/Arabic) that provides farming advice based on crop, season, pests, and treatments.
-

CERTIFICATES

Digital Egypt Pioneers Initiative (DEPI) — *React Frontend Web Developer*

(April – October 2024)

Completed a full track in React development and built an integrated capstone project using React & Node.js.

EDUCATION

Bachelor of Science in **Computer Science**

Obour Institutes — **Fourth Year Student**

Expected Graduation: 2026
